

Perfect example of how Omni Pole Bases can be a great option in time sensitive, lighting site projects

OMNI POLE FOUNDATIONS FOR SITE LIGHTING IN A NEW VINEYARD

Northern California

Weckworth Electric approached Oldcastle Infrastructure, Pleasanton in need of pole bases for a time sensitive project in which fifteen pole bases were required to complete site lighting in a new vineyard at a winery in Northern California.

Following the 2016 wine crush, Weckworth Electric was given a tight schedule to order and complete the installation of the lighting for the new vineyard. Omni Pole Base foundations were chosen as the ideal solution to expedite construction. Oldcastle Infrastructure delivered and set all fifteen pole bases in one day, meeting the construction schedule.

THE DESIGN

Omni Pole Bases feature a unique design in which the bolts can be adjusted within a plate to fit a variety of pole base sizes. Omni is stocked in inventory in a variety of Oldcastle Infrastructure plants throughout the country meaning we have a ready-to-go solution for your last-minute pole base job.
